

IN - OUT

Designer: Alessandro Duranti

IN-OUT is a collection that includes lamps with adjustable light.

Is available the indoor and outdoor version, wall or ceiling lamps, for tracks pole or personalizing solutions.

The body is in extruded aluminium and painted steel or galvanised metal. Adjustable mechanical joint and steel arm are in pressure die-casting as the aluminium optical that has an high efficiency. It's possible to choose among different sources: mains voltage halogen lamps or low tension and metal halide.

IN-OUT includes also model with led kits in red, yellow, blue, green, warm, cold and natural white. The electronic ballast is always included..
